

U.S. APPLICATION 09/945,053  
AMENDMENT B AND REQUEST FOR A TELEPHONE INTERVIEW  
ATTORNEY DOCKET NO.: 3919.003

IN THE CLAIMS

1. (Currently amended) A cleaning composition for removing organic deposit comprising:

- a) a water miscible solvent;
- b) an inorganic salt; and
- c) water;

wherein from about 30 40 to about 70% weight of the total composition is comprised of the inorganic salt in crystalline form.

2. (Original) A cleaning composition according to claim 1, wherein the ratio of water miscible solvent:water is in the range of from 9:1 to 2:1.

3. (Original) A cleaning composition according to claim 1, wherein the ratio of water miscible solvent:water is in the range of from 8:1 to 5:1.

4. (Original) A cleaning composition as in claim 1, wherein said water miscible solvent is selected from the group consisting of one to five carbon mono-, di-, and tri-alcohols; alkylene glycol ethers; and dialkylene glycol ethers.

5. (Original) A cleaning composition as in claim 1, wherein said water miscible solvent is a one to five carbon alcohol.

U.S. APPLICATION 09/945,053

AMENDMENT B AND REQUEST FOR A TELEPHONE INTERVIEW

ATTORNEY DOCKET NO.: 3919.003

6. (Original) A cleaning composition as in claim 1, wherein said inorganic salt is selected from the group consisting of sodium chloride, sodium bromide, magnesium bromide, magnesium chloride, potassium chloride, potassium bromide and zinc chloride.

7. (Original) A cleaning composition as in claim 1, wherein said inorganic salt is sodium chloride.

8. (Original) A cleaning composition as in claim 1, wherein said water miscible solvent comprises from about 15-50 wt.% of the total composition.

9. (Original) A cleaning composition as in claim 1, wherein said composition further includes a fragrance and a dye.

10. (Currently amended) A cleaning composition for removing organic deposit comprising:

- a) a water miscible solvent;
- b) an inorganic salt;
- c) water; and

A cleaning composition as in claim 1, further comprising d)  
octoxynol-9;

wherein from about 30 to about 70% weight of the total  
composition is comprised of the inorganic salt in crystalline  
form.

U.S. APPLICATION 09/945,053

AMENDMENT B AND REQUEST FOR A TELEPHONE INTERVIEW

ATTORNEY DOCKET NO.: 3919.003

11. (Original) A cleaning composition for removing organic deposit comprising:

- a) a water miscible solvent;
- b) an inorganic salt;
- c) water;
- d) a terpene;
- e) an anti-bacterial agent; and
- f) at least one surfactant selected from the group consisting of anionic surfactant, non-ionic surfactant, amphoteric surfactant and mixtures thereof;

wherein from about 30 to about 70% weight of the total composition is comprised of the inorganic salt in crystalline form.

12. (Original) A cleaning composition as in claim 11, wherein said water miscible solvent is selected from the group consisting of one to five carbon mono-, di-, and tri-alcohols; alkylene glycol ethers; and dialkylene glycol ethers.

13. (Original) A cleaning composition as in claim 11, wherein said water miscible solvent is a one to five carbon alcohol.

14. (Original) A cleaning composition as in claim 11, wherein said inorganic salt is selected from the group consisting of sodium chloride, sodium bromide, magnesium bromide, magnesium

chloride, potassium chloride, potassium bromide and zinc chloride.

15. (Original) A cleaning composition as in claim 11, wherein said inorganic salt is sodium chloride.

16. (Original) A cleaning composition as in claim 11, wherein said water miscible solvent comprises from about 15-50 wt.% of the total composition.

17. (Previously presented) A cleaning composition as in claim 11, wherein said composition further includes a second fragrance and a dye.

18. (Original) A cleaning composition as in claim 11, further comprises octoxynol.

19. (Original) A cleaning composition as in claim 11, wherein said at least one surfactant comprises 0.05 to 10 wt% of the total composition.

20. (Original) A cleaning composition as in claim 11, wherein said anti-bacterial agent comprises 0.01 to 3.0 wt% of the total composition.

21. (Original) A cleaning composition as in claim 11, wherein said terpene comprises 2.5 to 20 wt% of the total composition.

ATTORNEY DOCKET NO.: 3919.003

22. (Canceled)

23. (Previously presented) A cleaning composition as in claim 11, wherein the terpene is D-limonene.
